VINVENTIONS

SÜBR F

micro-natural

SÜBR F offers the aesthetics of a premium natural cork and the assurance of low and consistent oxygen ingress, for a long-lasting, identical and flawless protection.

PREMIUM FEATURES INCLUDE:

- "Flor" natural cork aesthetics
- Low oxygen ingress
- No cork taint
- Guaranteed bottle-to-bottle consistency

+

- Traditional high-end look & feel of natural cork
- Ideal protection for demanding profiles or long ageing
- TCA below detection threshold
- Extrusion process: identical performance, no variation

	SÜBR F
Oxygen Ingress per bottle	1 mg of O_2 at six months 1.4 mg of O_2 1st year 0.4 mg of O_2 2nd year 0.2 mg of O_2 per year from the 3rd year onwards
Oxygen ingress consistency (OVR*)	13 %
Sustainable development	Use biodegradable natural materials
Releasable TCA	Guaranteed below the detection threshold of 0.3 ng/L
Side & End print	Optional
Cork feature print	Single-piece "Flor" natural cork look & feel on side and ends
Diameter	24.3 ± 0.3 mm
Length options	44/49 ± 0.5 mm
Weight	7.5/8.4 g
Chamfer	Standard 0.5 mm
Extraction force	200 to 450 N**
Optimal date of use	We recommend using the closures within 12 months of the production date.

**OVR (Oxygen Variation Rate): coefficient of variation of oxygen ingress. The lower the value, the more consistent the oxygen ingress from one closure to the next.*
*** Extraction force measured after 1 hour at ambient temperature in CETIE bottle*

A new category of micro-natural closures

Performance

Thanks to its continuous extrusion process, the SÜBR range is the only one on the market to guarantee absolute performance consistency for every closure produced. SÜBR F ensures precise and consistent oxygen ingress, enabling controlled and steady wine evolution, with no bottle-to-bottle variation.

Design

The SÜBR F features the traditional appearance of a premium “Flor” natural cork, offering a prestigious opening experience worthy of your wines. Customisation is possible through printing on the sides and ends.

Sustainable

The SÜBR F closure is made from natural cork granules and an innovative, biodegradable binder, free from polyurethane glue. It complies with all applicable food safety standards and regulations.
